PRINCIPAL AND VICE-CHANCELLOR
A. E. MORGAN

MCGILL UNIVERSITY
MONTREAL

October 8
1936

Dear Madam,

The Principal will be glad to see you.

Will you kindly telephone to me for an
appointment?

Yours faithfully,

Principal's Secretary

Miss I. Klaehn,
4555 Sherbrooke St.W.
WESTMOUNT.

A. C. Morgan Esq.
Principal of Mc-Gill University
Montreal, Quebec.

Dear Sir -
The addresses delivered
by you on different occasions
since your coming to Canada
have encouraged me to write you
and I take the liberty of seeking
your advice.

I am a graduate of
Mc-Gill University with the degree
of Bachelor of Arts and a
former Resident Student of
the Royal Victoria College under
the late Warden, Miss Hurlbatt.

Except for occasional
opportunities of tutoring in
French and German I have been
unemployed for five years.

Dr. Murrays appeal to the Canadian Students to spend at least one year in England has strengthened a long-felt desire to do so. Would it be possible for me to acquire a position in an educational institute in England? However not as a student but in the capacity of teacher.

Will you kindly advise me on the probabilities of an opening in any of the Colleges or Schools in England, for a teacher in French, German, English Literature or History.

My father, the Rev. Dr. Klahn, is German. He is the son of the late Rev. H. Klahn, Pastor, Schwerin, Mecklenburg, and grandson of the late Professor, Doctor Krabbe, Rector of Rostock University. He has been a resident of Canada for many years, is a British subject and

at present Chaplain for the
Lutheran Immigration in
Montreal.

My mother is British born, of
English parentage. I, myself, was
born and brought up in Canada.
I have however, spoken both
English and German all my life,
and have had intimate intercourse
with all classes of both races.

I should greatly appreciate your
personal consideration and be
particularly grateful if you
would graciously grant me a
few minutes interview.

Sincerely yours,
Ernst Klackn

Dear Doctor: I am trying again
to make you interested in
my application for a
teaching position in Scientific
Research. Experim. and
Cultin Laboratories -

It is really impossible to
get anything in N.Y.C.
without so called "big
political pull" and that
certain politics - are
of the most rotten type".
" " " " " "

I wrote you several months ago, but received no answer.

Therefore I ask you again, to try to do something for me and do not let me starve to death during the coming winter, esp. in a city like N.Y.; where scholomical and pomatical politicians rule — to secure position here with foreign Diplomas, etc, is one of the most extreme impossibilities

Besides scientific lab. work I am
y.

able to teach languages,
 also (German, French,
 Well trained for Path. Bact.
 Program. Microscopy. etc
 I think, it is a crime
 to let a man like myself,
 be idle, Compell him

Dear Major Klein,

In reply to your further letter of the 12th January, I regret that we have no opening in this University where your services could be utilized, and I do not know of any Canadian university I could suggest to you.

Yours faithfully,

Principal.

Dear President and Doctor:

I am applying to your high office for a teaching position in Natural Sciences and Languages. A grad. of foreign Universities - excellent references.

It seems to me that qualifications, work, ability, willingness to work, ambition, enthusiasm, does not meet the approval of College Presidents in the U.S. Therefore, I am applying for work to your Office.

Very truly yours,
