Dr. Frank P. Day,
The Beech Nut,
Lake Annis, Nova Scotia.

Dear Sir:-

I beg to acknowledge receipt
of your letter of June 30th addressed to Sir
Arthur Currie.

Sir Arthur is at present in
England and I have forwarded your letter to him
there. You will probably hear from him in due
course.

Yours faithfully,

Principal's Secretary.

Dear Sir Arthur:-

Herewith a letter from
Professor Frank P. Day, which is self-explanatory.

The cutting was taken from
a Bulletin of the Carnegie Institute of Technology.
In another part of the Bulletin Dr. Day is also
referred to as "Dean of Engineering Freshmen".

I am very sorry to trouble you
but it seems necessary in this case.

Yours faithfully,

Sir Arthur Currie,
President of McGill University,
Montreal, Canada.

My dear President Currie:

We are considering for the presidency of the University of Oregon Colonel Frank P. Day of the Carnegie Institute of Technology, Pittsburgh, Pennsylvania. He has given you as one of his references and I am writing to ask if we may have a letter from you stating, in your judgment, what his qualifications are for this high position. Anything that you write us will be held in the strictest confidence and will be received with great appreciation.

Yours very truly,

My dear Mr. Turrie:

Your good letter in regard to Colonel Frank Day is before me and I am exceedingly glad to have one more fine testimony to the character of this evidently most superior man. I have never known anyone to have such a large and enthusiastic and friendly following as he has, and I think we would indeed be fortunate if we could induce him to come to Oregon.

With appreciation of your friendly interest in writing to me, I am,

My dear Sir Arthur,

Thank you for writing to the Oregon people in my behalf. It is probable that some local person will get the office, and I will not be disappointed, as my home is in Nova Scotia and I now have a good position in Pittsburgh. However if they make me an offer I shall probably go.

I am much interested in what you

BEECHNUT

say of the selection of Rhodes Scholars.
In the United States we have
improved the method greatly in the
last few years. The men are now
selected by committees of old Rhodes
men. I sit on two boards namely in
Pennsylvania and West Virginia.
Stoddell's president of Swarthmore who
was my contemporary at Oxford, is
now the American representative of
the Rhodes Trust and he has done a
wonderful piece of work. If the
method of selection is not good in

Canada I wish you could talk
 the matter over with Bydelatte. She
 is as well one of the trustees of
 the Gugenheim foundation, which
 promises to rival the work of the
 Rhodes foundation.

I should much prefer to live
 in Canada rather than the United States,
 as I am still a Canadian. I work in
 Pittsburgh, because I receive more than
 four times the salary I get as a full
 professor in the University of New Brunswick.
 Thanking you again for your kindness,
 I am, Yours more respectfully,
 Frank P. Day.

Dear Mrs. Gerlinger:-

Reference your letter of July 28th addressed to Mr. A.W. Turrie, this must be intended for General Sir Arthur W. Currie, Principal of McGill University, who is at present absent in England. There is no one else at the University with a name similar to that to which your letter is addressed. I am advising you of this, as I know you wrote to Sir Arthur asking for his opinion of Col. Frank Day.

Colonel Frank P. Day,

Swarthmore, Pa.

My dear Colonel:

I am sorry that I have not before this acknowledged receipt of your letter of October 15th and your kindness in sending me the Forum.

I read your war story "The Iroquois" with very much pleasure indeed, and I am today sending the magazine on to Mrs. Fortier, formerly Mrs. O'Donohue. I have also ordered the novel "Rivers of Strangers" and shall look forward to reading it with much interest.

I was down at St. John, N.B., on Armistice Day and had the great pleasure of speaking to some three or four hundred officers who had gathered there from all parts of the Maritimes. There were a great many of the old 25th and 26th there and we spent a very enjoyable evening together.

I shall always be very glad to hear from you and I hope of your continued success.

Ever yours faithfully,

UNION COLLEGE

OFFICE OF THE PRESIDENT

January 30, 1929.

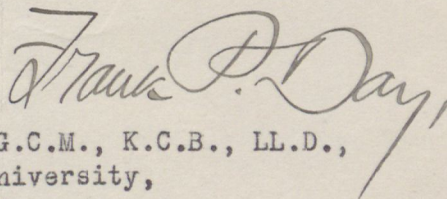

My dear Sir Arthur:

I hope you have recovered your health by this time and that you are able to be back at McGill carrying on. When I wrote your secretary last summer I first learned that you had been ill after your gallant struggle in the law courts.

You may have heard that I have been made President of Union College at Schenectady. My inauguration is on May the 4th and I hope you will consent to be present on that occasion and make a short speech as representative of Canadian colleges at our inaugural luncheon. Schenectady is only a short run from Montreal and I do hope that you and Lady Currie will come down and spend the week-end at our house. We have a fine big President's House here that we are very proud of and we would consider it a great honor to entertain you. I cannot promise to take you to a big league base ball game at this time but there may be equally exciting things going on.

Please give my kindest regards to Lady Currie.

Sincerely yours,

Gen. Sir Arthur Currie, G.C.M., K.C.B., LL.D.,
Principal, McGill University,

Dr. Frank P. Day,
President, Union College,

Dear President Day:-

In the absence of Sir Arthur Currie I beg to acknowledge your letter of the 30th of January, in which you were kind enough to invite him to be present at your inauguration as President of Union College on the 4th of May next.

I know Sir Arthur would wish to congratulate both yourself and the College on this appointment and will regret that he cannot attend the ceremonies. While he has fully recovered his health he is prolonging his stay abroad on the advice of his physicians and it will probably be the end of May before he returns to Montreal.

With all kind wishes for a successful function, I am,

Yours faithfully,

Acting Principal.

DOCKET STARTS:
HONORARY CHANCELLORSHIP

UNION COLLEGE
SCHENECTADY, NEW YORK
OFFICE OF THE PRESIDENT

March 26, 1930.

My dear Sir Arthur:

I have not heard from you for a very long time although I have been very glad to learn that your health is very much improved.

I want to congratulate you again for the very gallant fight you made for the good of the service in repressing irresponsible people. I know that you realize that in that fight your backers and well-wishers were scattered from coast to coast.

I have been requested by the trustees to ask you to be our Honorary Chancellor of Union University for next year - June 15th, 1931. I do not know whether you know very much about us as we are a very quiet place. We were founded in 1795 and have a long and honourable history behind us. Some of our Honorary Chancellors in the past have been, Elihu Root, Chief Justice Hughes, Mr. Herrick, Sir Robert Falconer, Lord Bryce, Jusserand, Mr. Taft, Sir Esme Howard, and for 1930, John Van Antwerp Mac Murray, the late Minister to China, who has returned to be head of the Johns Hopkins School of International Relations.

The only obligations that will be imposed upon you is that you will be required to come here on the morning of June 15th to deliver the Commencement speech on whatever subject you care to talk upon, to receive the honorary degree of Doctor of Laws and a fee of \$100.

Please give my kindest regards, to Lady Currie.

Colonel Frank P. Day, D.S.O.,

Dear Colonel,

When I returned to McGill this morning I found awaiting me your letter of March 26th in which you have done me the great honour of asking me to be the Honorary Chancellor of Union College next year.

I accept with profound thanks this distinction and will be prepared on June 15, 1931, to deliver the commencement address. I shall let you know in good time the subject on which I shall speak.

I have been very interested in you and your acceptance of the Presidency of Union College and I should like to know more about it. Perhaps you can send me some prepared literature which will enlighten me.

I took the liberty of suggesting to Queens University that they approach you and ask you to accept the Principalship in succession to Bruce Taylor. They have done nothing as yet and, I think, are having some trouble in making a choice.

It will be a great pleasure and a great honour to be with you next year as your Honorary Chancellor and to receive your honorary degree.

Colonel Frank P. Day

My wife joins me in all good wishes.

Ever yours faithfully,

UNION COLLEGE
SCHENECTADY, NEW YORK
OFFICE OF THE PRESIDENT

April 4, 1930.

My dear Sir Arthur:

We are all very glad that you are going to be our Honorary Chancellor for 1930-1931 and I hope that you and Lady Currie will be able to set aside a few days so that you could stay with us. I cannot promise you a baseball game this time as we are far from the National League but I think there will be a number of things going on that will interest you.

I am asking the Secretary of the College to send you some of the printed matter in regard to Union.

Ralston was down here last year and made a fine speech at the time of my inauguration.

I am much obliged to you for suggesting my name for Queens but I do not believe I would like to leave Union for a good many years if the trustees want me to remain here. I have started a number of projects that I must see through to the end. Union is a fine, quiet old place, the first undenominational college in America, and I believe it has a great future. We only take 800 students in the college and we have an endowment of \$5,600,000. which is growing steadily.

It will be a real pleasure to see you and Lady Currie again. Please give her my kindest regards.

I do not want to bother you and I hope you will turn this correspondence immediately over to your secretary who could communicate at once with Mr. Milton Enzer Administration Building, Union College), in charge of publicity at Union College.

I am anxious next September when I make the announcement of your honorary chancellorship to have a few good war pictures of you to appear in some of the United States papers. I wonder if your secretary would be able to send me some different photographs of you in various stages of the War? We will have mats made of these photographs and send them back uninjured. I should also like to have a photograph of you in academic costume.

I hope this will not be too much bother and I know this is a busy time for you but when you have a little leisure I hope you will be able to furnish us with these pictures.

THE NEWS BUREAU
MILTON M. ENZER, DIRECTOR

January 23, 1931

My dear Sir:

Under separate cover I am returning to you a photograph of yourself taken when commanding the Canadian Army in France. I have used this photograph with good results in announcing your appointment as honorary chancellor at Union College for this year.

I want to thank you for the cooperation I received in receiving this photograph and also the one in civilian clothes. I am looking forward to meeting you when you come here in June to deliver your chancellor's address.

May I ask you at this time to please remember to send me copies of your chancellor's address as soon as you have written it. We must send prepared statements to the press far in advance of publication, and the earlier I receive your address the easier it will be for me to prepare it for newspaper distribution.

I would also like to have, if possible, another copy of your international press photograph and biographical sketch folder. The one you sent me was borrowed by a New York newspaper, and they have not returned it.

Respectfully yours

Dear Sir,

As requested by your letter of January 23rd, I am sending you another biographical sketch folder of Sir Arthur Currie. Sir Arthur Currie is on his way to India, where he will represent the Canadian Government and people at the ceremonies formally inaugurating New Delhi as the capital of British India. We do not expect him back in Canada until May, so that there may be some difficulty about getting his Union College address very far in advance of publication. However, immediately upon his return I shall bring the matter to his attention.

May 1, 1931.

Dear Sir Arthur:

I was glad to learn from the newspaper that you had returned safely from India.

I suppose I have told you before, but I am going to repeat it now, that we are expecting you to be our principle speaker on Commencement Day, June the 15th, at 10 A.M.

At the last trustees' meeting the trustees voted to give you the degree of Doctor of Laws, so that on Commencement Day the college will be proud to grant you that degree, our hood and an honourarium of \$100. I suggest that you bring along your own cap and gown, and, if you will pardon me, that your speech be not too long. The most acceptable commencement speeches I hear are not over half an hour in length.

Will you please let me know as soon as possible the title of your speech and the day of your arrival? I hope that Lady Currie will be able to come with you. You will both be our guests at the President's House.

Most sincerely yours,

President Frank P. Day,
Union College,
Schenectady, New York.

Being away over the weekend, I did not get to your letter of May first until to-day.

Let me say that I am very happy in the prospect of visiting Union College on the occasion of the Commencement Day Exercises, June 15th.

Regarding the address, I shall let you know just as soon as I can not only its title but what I intend to say. You will quite understand that with so much work awaiting me on my return from the Far East, I have not been able to get to it at all as yet. Regarding the length of the speech, I have often intimated to Convocation Day speakers that no souls are saved after the first twenty minutes. I shall keep well within that limit and shall probably not exceed fifteen.

May I, on behalf of my wife, thank you very much for including her in the invitation. If she will come along I shall let you know ahead of time.

With all kind wishes to yourself,

I am,

Ever yours faithfully,

Principal

June 9th, 1931.

Dr. Frank P. Day,
President, Union College,
Schenectady, N. Y.

The Director of your News Bureau has been anxious to get my Commencement Day address, and I am sorry that I have been so delayed in sending it, but, as you can understand, until our own Convocation was over (May 29th) I had no time to think of anything else.

I am enclosing herewith a copy of what I have prepared - and what I suppose I must stick to if it is to be printed for the wide distribution mentioned by your News Bureau. The only fault I have to find with this advance publicity is that it effectively precludes any spontaneous utterance, and one cannot then say what the inspiration of the moment might dictate.

My present plan is to leave Montreal at 7.30 p.m. Sunday night (D. & H. RR.) and come to Schenectady from Albany next morning, leaving Albany at 7.20 a.m. and arriving Schenectady 7.53 a.m. Engagements in Montreal make it necessary that I leave Schenectady in time to catch the night train back from Albany to Montreal.

Lady Currie, I am afraid, will not be able to come with me.

Looking forward to seeing you,
and with kindest wishes,

I am,

Ever yours faithfully,

Principal.

UNION COLLEGE

Dear General Currie:

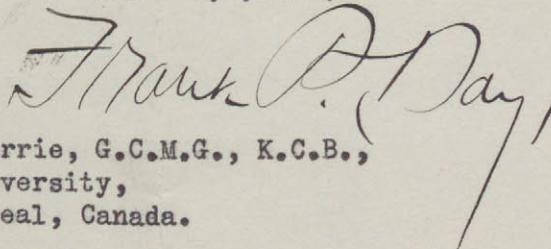

I am sorry your visit has to be so short but we are delighted to have you under any consideration.

I shall be at the station in Schenectady to meet you at 7:53 A.M., standard time. Should I miss you at the station, although I do not see how that would be possible, please take a taxi and drive to the President's House where we will be expecting you for breakfast.

There are, as you suggest, certain disadvantages in having your speech printed in advance, although of course it will not be released until the day it is given, but please do not feel that you have to stick to your text if the spirit moves. The printed speech we only want to have for your own protection.

We will be sorry if Lady Currie cannot come with you but should she change her mind during this week she will be most welcome. Please give her my kindest regards.

Sincerely yours,

Sir Arthur W. Currie, G.C.M.G., K.C.B.,

UNION COLLEGE, SCHENECTADY, N.Y.

An institution founded in 1795 under a charter which provides that no one religious denomination shall at any time have a majority in the board of trustees; hence the name Union. In 1812 the present site on a hill overlooking Schenectady, was secured, and in 1813 a comprehensive plan for grounds and buildings adopted. The work of Jacques Ramee, a French landscape architect who had been employed by the government in the development of the city of Washington.

Union was the first to break away from the Old World traditions and introduce new courses of study. As early as 1809 a course in modern languages was instituted. In 1828 a scientific course was established, and in 1845 a course in civil engineering was added, anticipating the demand for technical training which almost every other institution of higher education in America has since recognised. From this has developed the present general engineering department, offering courses in civil and sanitary engineering.

A spirit of tolerance in the government of students made possible the establishment of the college fraternity system. In the college world Union is designated as the "mother of the Greek letter societies.

In 1895 an electrical course was added to the other courses in the engineering department, and in 1902 this course was greatly extended and thoroughly organised as a special department. By arrangement with the Gen. Elec. Co. whose plant is in Schenectady, the college has such special advantages for students in electrical science as cannot be offered elsewhere.

Four courses are offered: the classical course, requiring Greek, leading to the degree of A.B.; the Latin-Scientific course, offering additional work in history and modern languages in place of Greek, leading to the degree of Ph.B.; the scientific course, emphasizing the work in mathematics and science, leading to the degree of B.S., and the engineering courses, leading to the degree of B.E. the postgraduate degrees of M.A. and M.S. are conferred upon graduates of the college on the completion of approved work and theses in course.

117th Psalm

From all that dwell below the skies,
Let the Creator's praise arise;
Let the Redeemer's name be sung,
Through every land, by every tongue.

Eternal are thy mercies, Lord;
Eternal truth attends Thy word;
Thy praise shall sound from shore to shore
Till suns shall rise and set no more.

Song to Old Union

By FITZHUGH LUDLOW, '56

Let the Grecian dream of his sacred stream,
And sing of the brave adorning
That Phoebus weaves from his laurel leaves
At the golden gates of morning;
But the brook that bounds through Union's
Grounds
Gleams bright as the Delphic water,
And a prize as fair as a god may wear
Is a dip from our Alma Mater.

CHORUS

Then here's to thee, the brave and free;
Old Union smiling o'er us;
And for many a day as thy walls grow gray,
May they ring with thy children's chorus.

Could our praises throng on the waves of song,
Like an Orient fleet gem-bringing,
We would bear to thee the argosy
And crown thee with pearls of singing.
But thy smile beams down beneath a crown,
Whose glory asks no other;
We gather it not from the green sea-grot—
'Tis the love we bear our mother.—*Chorus.*

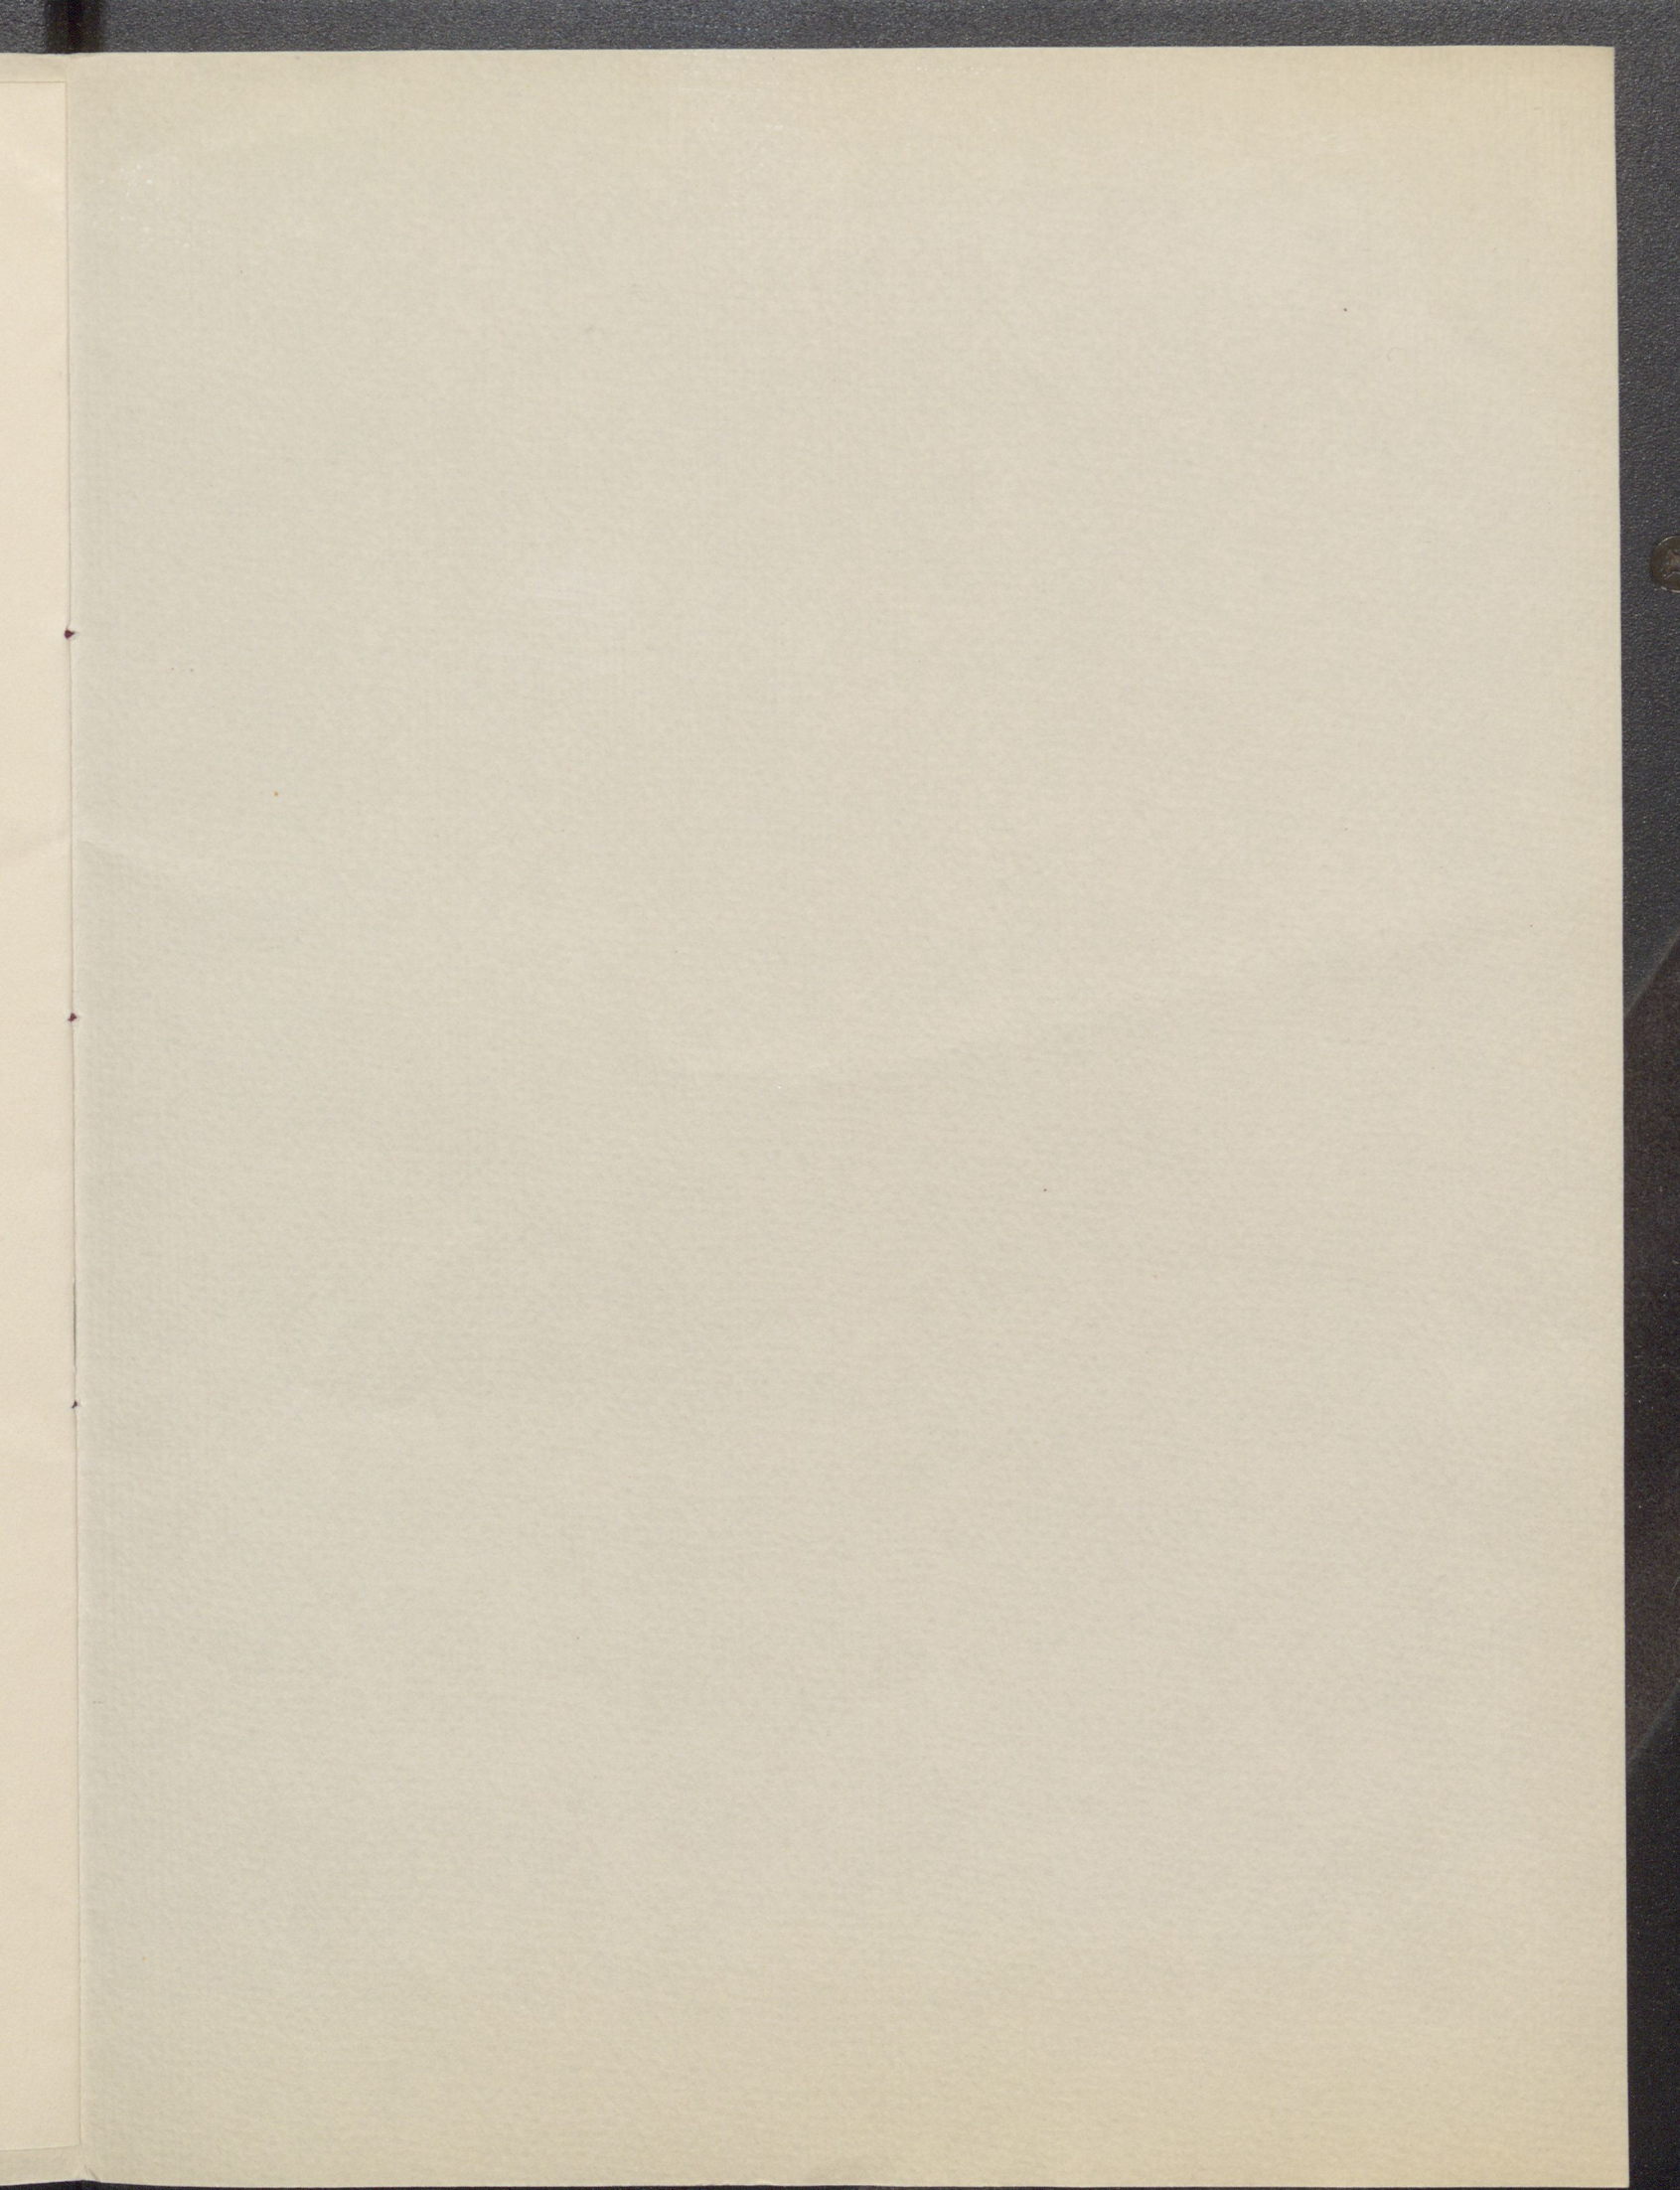

Let the joy that falls from thy dear old walls,
Unchanged brave time's on-darting;
And our only tear fall once a year
On hands that clasp ere parting.
And when other throngs shall sing our songs,
And their spell once more has bound us,
Our faded hours shall revive their flowers,
And the past shall live around us.—*Chorus.*

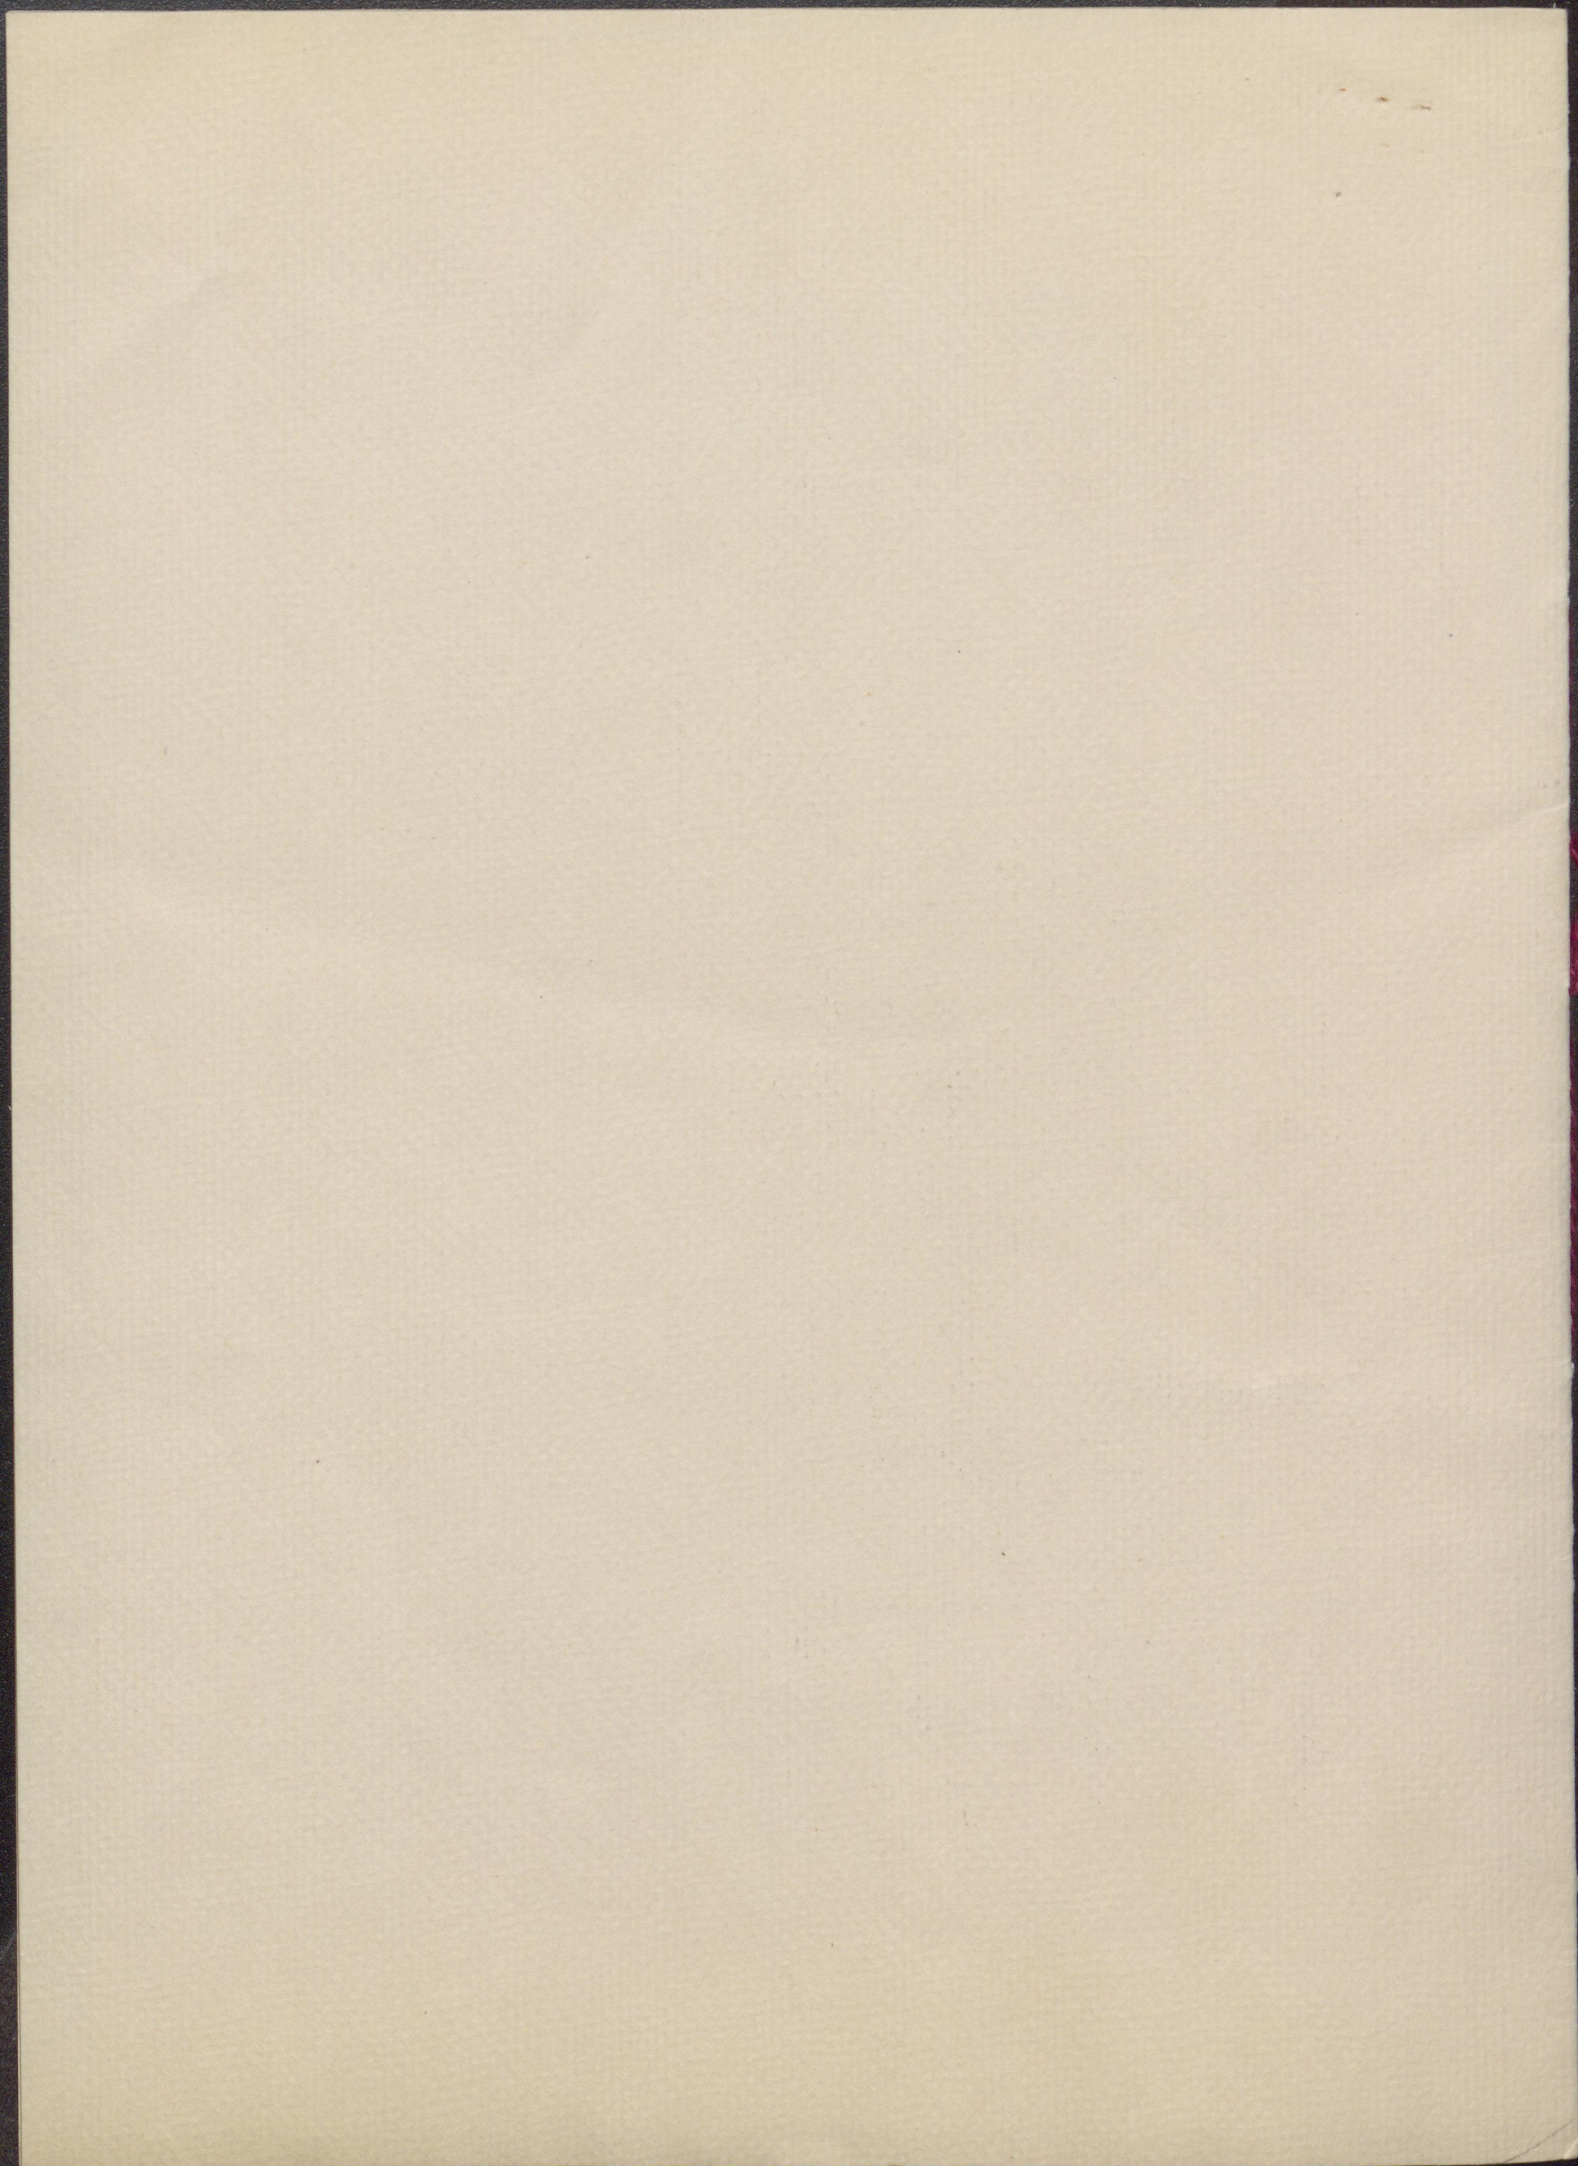

Benediction

Explanatory Notes

Please read them all ■

Tickets will be needed for events marked by the *. They may be secured on registration.

Alumni Headquarters. Office for registration opens 9:00 a.m., Friday, in the General Engineering Building. All alumni should register and secure their tickets immediately upon their arrival. This coöperation will be necessary to accommodate properly the large number. Parcels may be checked here. Note the Civil Engineering exhibit at headquarters.

Ladies' Headquarters. A dressing room will be reserved for ladies in the General Engineering Building.

The Mountebanks. The Mountebanks is the name of our student dramatic association. They will repeat their Junior Week Play, T. W. Robertson's "Caste," at our request. It will be given on the Mountebanks' stage in Hanna Hall. Tickets (\$1.00) will be on sale at the door and at alumni headquarters. This takes the place of the Commencement Ball.

Alumni Procession. Reunion classes are asked to wear costumes. Scoring for the Waldron Cup is based upon: 1. Perfect attendance, 50 points; 2. Maximum attendance, 25 points; 3. Costume, 25 points. The Anable Cup is awarded annually to the class having the largest number in the parade. All other alumni are asked to join the Old Guard division.

Alumni Luncheon. Everyone is expected to register before 11:30 A.M. In no other way can anyone be assured of a seat with his class. The Gymnasium will be closed until 12:45 P.M. to prevent confusion in seating. Tickets admitting friends of alumni to the balcony of the Gymnasium during the luncheon must be secured at registration.

Ball Game. Admission \$1.00.

Alumni Night. All who attend will be charged 50 cents, which includes admission to the dance. The Commencement Committee needs the profit on this event to balance their budget.

The Commencement Procession forms at 9:30 o'clock on Monday morning. Candidates for Honorary Degrees will meet at the President's House, the Trustees at the Administration Building, the Faculties of the College and of the University Departments at Silliman Hall. The undergraduates and the alumni, the younger classes preceding, and the Graduating Class of the College and of the University Departments will form in front of the Old Chapel in the order named. The line of march will be past Silliman Hall and the President's House to the Chapel, where seats will be reserved for those taking part in the procession.

Sir William Currie,
Vice-chancellor, McGill University,
Montreal, Canada,

Dear Mr. Currie: I wish to commend what you had to say, as commencement speaker at Union College, Schenectady, N.Y.

I have given considerable thought and study to the weakness of our public school system, and believe it should be broadened to include spiritual, thrift and economic training, which I would have compulsory.

I am enclosing you an article I wrote for the Michigan Tradesman last year. It attracted considerable attention. I have received many fine endorsements for spiritual training in our public schools from eminent educators. Just recently received a splendid letter from Mr. Robt. M. Hutchins, president of the University of Chicago, also another from Prof. Corliss Lamont, of Columbia University of New York.

I am planning a movement to back up a broader educational law for this state. Will have a bill drafted and presented to our legislature at its next session. We have got to put more humanitarianism in business. We have been neglecting spiritual training and we have a youth crime problem. We cannot cure our present economic ills unless we develop more the spiritual side of life.

Very truly yours,

E. B. Stebbins

Sir Arthur Currie, L.S.D.
President, McGill University.

Dear Sir:

In a recent article written to the Calgary Herald, a quotation was made of a statement alleged to have been made by you. This statement was, "Our educational system is the cause of depression. It stifles originality and initiative and its victims are reduced to one sick level of mediocrity and avarice."

I am a student in my third term, honoring in Chemistry, at the University of Alberta. I would

much appreciate your confirmation
or denial of this statement, and,
if it is correct, the context in
which it occurred, as a step
towards refutation of this
entirely condemnatory article on
college education.

Yours sincerely,
John A. Billon.

John A. Bilton, Esq.,

Calgary, Alberta,

Dear Sir,

Let me acknowledge receipt this morning of your letter of July 7th. May I say in reply that I did not state "our educational system is the cause of depression; it stifles originality and initiative and its victims are reduced to one sick level of mediocrity and avarice".

It would interest me to see the original text of this report.

It may be that the genesis of the newspaper article lies in an address I delivered at Union College, Schenectady, N. Y. I am taking the liberty of sending you a report of what I said on that occasion.

Yours faithfully,

Principal

Dear Sirs,

Sir Arthur Currie asks me to thank you for your courtesy in sending him the "Union Alumni Monthly" containing a report of the Commencement Day Exercises and the Chancellor's Address. He wonders whether it would be possible to obtain five or six more copies of this interesting periodical? If you can spare them, he would be very glad to have them.

Yours faithfully,

My dear Mr. Mc Murray,

Your letter asking for copies of Sir Arthur's address at Union College has been forwarded to me here where I am staying for the summer. I am now writing to one of the secretaries at the college to send you some of the copies I had printed up for release to the press. I am sure you will receive them within a few days.

I shall return to the campus early in Spetember and shall be glad to send you more copies, should your needs require them.

Sincerely yours,
