

C05417/1.2

JULY, 1906.

DEAR SIR,

A desire has been expressed in many quarters that an Association should be formed for the discussion of purely Medical Subjects, which should be of a national, and not of a local character.

Informal meetings held in London, Edinburgh, and Dublin have resulted in the adoption of a scheme for an Association of Physicians of Great Britain and Ireland, of which we beg to enclose a draft.

We beg, in accordance with Paragraph 4 of the Report, to invite you to become an Ordinary Member of the Association.

We are, dear Sir,

Yours faithfully,
