(Letter to Dr. Cushing from Mrs. Osler)

Sept. 23rd (1904)

Dundas

Dear Dr. Harvey C.

I have a feeling that I haven't written you as much as I meant to this summer but Kate and I have managed to keep up quite a correspondence. I have just had a nice letter from Her.

I am so glad to hear the darling is so well again. What fun we will have with him this winter! Do make Kate give up Margaret - There seems no use her having to take care of a grown baby too & it must be possible to find a good young nurse. Billy writes me how good you have been to him. I am most impatient to get home and hope another week will find us safely back at our dear old stand. How awful it will be to give it up - how perfectly dreadful! I can fancy we will all be putting a smiling face on the situation this winter and will not look forward to the gloomy day and the gloomy days to come. I am already weary of the triumphal procession through Canada of the Regius Professor and family. My bestest to your chum and much for yourself - Au revoir

Affect.

G. R. OSLER

Billy - I must have returned
to Melts. on Sept 1st & probably
lived with H.C. at no. 3 till
the O's returned to no. 1.
