(Letter to Dr. Cushing)

7, NORHAM GARDENS,
OXFORD

Dear Cushing:-

So glad to have your nice long letter of the 30th., and to hear such good news of Kate and the children. Give Pius my love, and tell him not to forget his Uncle Osler.

I am greatly interested about New Haven. I wish it were a larger place, but I am sure you could be very happy there. If they could give you a good hospital clinic the position would be worth considering. You would be a horrid loss at the Johns Hopkins Hospital. Sorry to hear there is not much chance of seeing you over here this summer. You will, of course, be in Toronto. I shall come out early in August.

We have bought a house in Norham Gardens, which will, I think, be very satisfactory. We will have to add to it. There is a very nice garden of about an acre. We cannot get possession until August the first.

I forget whether I told you about the 17th. and 18th. century medical library I am trying to secure for the Johns Hopkins University. I am just having the books catalogued before making the final statement, as I found there were a great many blanks.

Isaac has bought a boat. He is very well and wonderfully happy here. He is a different child.

It is very sad about poor Thomson. Greet your father, please, and your brother when you write.

Love to Kate,

Ever yours,

W O.

Continued in my letter.
