

CUSH/52.24

(Letter to Dr. Cushing)  
(typewritten)

13, NORHAM GARDENS,  
OXFORD

Nov. 5th, 1907.

Dear Cushing:-

What a splendid programme! I have no doubt the Rockefeller Institute has stirred them up. Your John Armstrong and the little Epistola have only just come back from the binder. They will go this week. It was lucky you mentioned it. I should have been wondering why I had two editions of Armstrong. By the time this reaches you Mrs. Osler will be in Baltimore. If she would like to and do district nursing, tell her I will give her six months' holidays, though we need her here.

I am picking up a few treasures every little while. Do make all arrangements for a visit over here next summer. The Garage is half way up and we hope to be able to afford a motor, so that you and Kate could go about and scour the country while we looked after the babies.

Isaac had a great bonfire last night in honour of Guy Fawkes and a splendid show of fireworks.

Ever yours,

WM OSLER
