Dear Jacobs:-

Such a good stroke of business this summer for Tom Fitcher. You will have heard from him that he has at last secured a bully girl - Marjorie Howard. I am sure you & Mrs. Jacobs will be delighted. She is just the one for him - so capable & bright, and a first-class manager. It is an old affair with them, some years back. We have been much excited over it & of course Mrs. Osler has been acting as promoter in chief.

We have had a long summer - people coming and going all the time... The Cushings spent a week with us and we had such a happy time. We have just missed Welch - who sails today from Dover. We came here a few <sup>days</sup> weeks ago - such a lovely spot. We have a house for a couple of weeks and are enjoying the bathing. It is a mile from <sup>Louis's Sand</sup> the land end - such rocks & sea and so far glorious weather. The motor will meet us at Exeter and we shall take a week in Devon & Somerset on our way home. I hope Jim Frick is better - poor chap! it is a pity he is so nervous about himself. Send a line saying how he is - give him my regards & best wishes. Cushing & I have a great time together in the Libraries at Oxford. He will show you some interesting Vesalius photographs. I have my Servetus lecture ready for the Bulletin. I wish I could have gone to the Vienna<sup>e</sup> celebration. Love to Mrs. Jacobs from us both & from Isaac Walton, Jr. who took us out fishing yesterday & we were both sea sick.

Yours ever,

Wm. Osler.
