Dear Cushing,

Morley is patching and re-lettering the books which need attention. The case will have to go direct to Baltimore as the Smithsonian is limited to 4 lb. packages, but I will find a direct steamer.

How interesting about Cuneus. It would be well to look into the matter. I will have a good photograph taken of the C.H. portrait. Has it ever been reproduced?

How delighted you must have been to see the children, hug them for me. Love to Kate.

Sincerely yours,

WM OSLER
