Dear Mac:-

How goes the System? So glad to have the proofs coming so rapidly, which means I suppose that you will finish very soon. I suggested to the Leas a sort of summing up which would give an opportunity of adding certain recent additions. Did they ever speak to you on the subject? Arthur Lea I think was not very favourable. It would not do of course to make it too long.

All well here. I am busy with the Schorstein Lecture On Syphilis and Aneurism and a Tropical School Introductory lecture. Comfort T.B.F. Marriage is not such a hopeless state as many suppose. The 'open arms' has had a good season. I wish we could see you both here before long.

Love to Amy.

Sincerely yours,

Wm. Osler.
