Dear Harvey C.

Your books will leave next week - Morley has been so slow in repairing &c I will send direct to B. by a London steamer. Too big for the Smithsonian. Very busy - all sorts of things on hand - T.B., books &c I had a great meeting at the Bibliographical Society & I had a good set of slides. My new *Frauline* has gone over the 1080 Burton books looking for MS notes - only a few - his own horoscope & that of Queen Elizabeth. The Colophon Club dinner afterwards was very interesting - all the leading Bibliographers of London. I was their guest and as a member I took W. Buckler. We had a great eve./

Love to the angels - all four

Yours

W. O.
