Dear H.C.

About this size & shape - pure carbon - like the best Kimberly products.
It took just six days to wriggle thro, and it started in the lower anterior calyx.
It only bowled me over twice into the faint & puking stage but it bored for hours
at a time It passed yesterday am, & I am feeling a new man It is nearly 8 years
since I passed the *quartz* one - not of the fine quality of this
All well the house ~~is~~ sad without Ike but he writes so contentedly from Winchester.
Love to Kate & the darlings & to your father

Yours

W.O.
