From the Regius Professor of Medicine, Oxford.

April 12th, 10.

Dear Garrison:-

I am glad that you have put in a claim for our old friend Fracastorius.

With reference to the mosquitoes and malaria you will find a very interesting statement in Boyce's book 'Mosquitoes and Man', which quite puts Finlay in the shade.

Give my kind regards to Dr. Fletcher, and to the Surgeon General.

Sincerely yours,

Wm. Osler.
