(Letter to Dr. Cushing from Mrs. Osler)

Oct 1st (1910)

13, NORHAM GARDENS,
OXFORD

Dear Harvey

Your letter came just as I had mailed one to Kate. Thanks so much for the Kodaks of the darlings - I indeed wish I could see them all - I cant make up my mind to go now with Revere just starting at school - The news in your letter is indeed startling - and we shall await the decision with great anxiety. I have always wanted you to go to Boston and thought Harvard would have come to her senses long ago - I can imagine Kate is in a puturbed state of mind - She has my deepest sympathy Dr. Osler is himself after & spring flowers are coming up

Affect.
