(Letter to Dr. Cushing)
(typewritten)

Nov. 15th, 10.

13, NORHAM GARDENS,
OXFORD.

Dear H.C.

Many thanks for the seals. I think it would be better to use just the shield itself. It is very interesting what you say about the Plantin volume.

I hope by this time you have got the Vesalius that I bought over your head. I picked up a very nice copy of Rondelet's Fishes the other day; and got old Philemon Holland's 'Pliny's Natural History' at Sothebys last week.

We have been very busy here lately, so many people coming and going. Milne gave us an interesting talk on Galen's Anatomy. I am surprised that you have not yet seen Ball's Vesalius; it is published in St. Louis.

Love to the bird-chicks.

Sincerely yours,

WM OSLER

(handwriting)

Have just read your Bulletin paper. What a splendid record!
