(Letter to Dr. Cushing)
(typewritten)

13, NORHAM GARDENS,
OXFORD

Ded. 15th, 10.

Dear Cushing,

Thank you so much for Ball's Vesal, which is beautifully printed, in fact it is as fine a piece of typography as has been done in America. The non-Vesalian matter is the most interesting, at least it is to us who are so familiar with the great Belgian.

I am very busy just now, in the midst of examinations, but we finish this week.

Ever yours,

WM OSLER

Hug the Darlings - all!
