

(Letter to Dr. Cushing)
(typewritten)

13, NORHAM GARDENS,
OXFORD

Feb. 1st, 11.

Dear Cushing,

At the Comitia on Thursday permission was granted to you to have the Vesalius portrait photographed. I have forgotten the name of the man who did the other work for you, or I would have sent him word; but you write and ask him to arrange with Mr. Fleming at the College.

About the Epistolae of Vesal, the venous section one which I have appeared in '39, and the Chyna-root in '46; the latter I got at the Banks sale, where it was wrongly catalogued. Lang in Rome sent me word of a nice copy, which he may still have. I thought you had both of them.

Sincerely yours,

WM OSLER
