(Letter to Dr. Cushing)
(typewritten)

13, NORHAM GARDENS,
OXFORD

May 13th, 1911.

Dear Harvey C.

I have sent bids for you, and I have told them not to miss the VESAL letter, you and I could toss for it. There are a great many good things in the catalogue, but curiously few items of the first class. I will let you know at once about the results.

I was so interested to hear from Kelly that the Trustees have decided to have whole time clinical men. This of course could not include Thayer, yourself and Fitcher and the others; it will be an interesting experiment. How Barker will get along with a salary of 7500 dollars it is hard to say. I suppose poor old 'Hump' will have to look for another job.

Love to the angels.

Sincerely yours,

WM OSLER

(handwriting)

There seems to be a general impression that we clinical men make large fortunes in a few years. I did not take away from B. a dollar made in practice! it all got into circulation again! I got away with a little less than my book brought me - & with that I paid for the house.

Copied June 1952

for Chesney & al.
