Dear W. S.

I am so glad to hear they have offered you the chair at Harvard and the M. G. H. What could be more delightful than to go back to your old School-on top! and you deserve it! I hope they have made good pecuniary offers, as N. E. is not as good for consultation work as Baltimore and the D. C. region. I am sure Sister Susan would be happy when once she adopted a Back Bay costume. How glad Fitz would be! he has been a loyal friend to you. Revere had a sharp pneumonia but crisis on morning of the 6th day and well ever since. Just sending off the last of the text book revision - deuce of a job, but interesting. I have smashed up a good many of the old sections.

Love to S. S.

Yours,

W. O.
