Dearest Kate

Our two Vesalius lunatics are deep in the book shelves in the hall & I must send you a line to tell you how I wish you were here. We were delighted to find Harvey could come today and we hope to keep him until Saturday morning. I have never seen him look so well - he is almost fat - And just as dear as ever. I am so glad to hear about the Brookline house, - asparagus bed - toothless chauffeur - and everything. Somehow I feel as though you would be nearer in Boston than in Baltimore. I am sorry Susan Chapin will be away your first winter but I want nothing to prevent her coming to us. She really must get away. We have had the usual strenuous summer. Last week we were in Dublin at the Bicentenary at the Medical School. The Thayers were there. I have never seen so completely & smartly dressed person as Susan, - to her finger tips - even a white kid card case to match her shoes at a garden party - and such a wonderful white serge dress I have never seen! I was truly proud of her. Do give my love to the Goodwillies - I feel so sorry for Mary G - leaving you and Amy at the same moment. We are expecting Pa & Ma Gwyn tomorrow and I anticipate so much pleasure in having them - Our garden is lovely. Tell Amy & I wish she was here.

Best love to you all.
