Osler, W

(Letter to Dr. Cushing)
(typewriting)

10, Feb. 1914.

From the Regius Professor of Medicine, Oxford.

Dear Harvey C.,

Ask your secretary to telephone to the Peabody Institute and find out if this man is in the country, or send his address to Dr. Drinkwater at Wrexham.

As I told you, I think, I heard from Heger the other day that he had heard nothing about a German reproduction of the *Tabulae Sex*.

Love to the family,

Sincerely yours,

W O
