

(Letter to Dr. Cushing)
(typewritten)

CUS417/52.96

1, April, 1914.

Osterlin.

From the Regius Professor of Medicine, Oxford.

Dear Harvey C.,

Are you coming over to that Surgical Association gathering in July? They asked me to give an address. I accepted at first, but I find now it clashes with the British Association at Aberdeen.

I hope you will make your plans to come to the Brussels celebration and then afterwards give us the address at the London gathering. I really think you should.

You will be glad to hear that Revere has passed his Entrance Examination! He is off to Scotland for ten days fishing^t in these holidays; he and a friend have been offered rods at a very good river. You can imagine his excitement!

Love to the darlings.

Sincerely yours,

W.O.
