26, October, 1914

From the Regius Professor of Medicine, Oxford.

Dear Harvey C.,

Thanks for your nice fat cheque, which will help some of the Belgian babies and their parents. We are getting the families very comfortably settled, and it is really a delight to see them comparatively happy.

I wish I could look in upon you all.

As I told you, we are waiting instructions from Heger whether we shall go on with our celebration here. Do you think there is any possibility of your coming over to give the general talk on Vesalius? It would help matters, as the time is short, if you would just send a cable - "Osler, Oxford. Yes, or No.". If you cannot come, it is hard to say who we should have. I don't much fancy MacAlister, as he did not impress us, I think, very favourably.

Love to the darlings.

Sincerely yours,

W O
