(Letter to Dr. Cushing)  
(typewritten)

October 30th, 1916.

From the Regius Professor of Medicine, Oxford.

Dr. Cushing,  
Brigham Hospital, *Pardona Green-fine*  
Boston.

Dear H.C.

We had such nice first hand news of you and yours last evening, when to our delight Sue Chapin arrived un-announced. She did not let us know, lest we should be worried.

Thanks for arranging about that Surgeon for France.

Viets is settled on solid work, we are all very fond of him. I have got him interested in Willias, on whom I think he will do a good piece of work. Carl is back for a while, evidently having done remarkable well. We must have some of Reyer's letters copied. He is very busy with mules and mud and ammunition wagons. He has had a very good training this summer, and has become very keen about the work.

Your Memorandum is rather awkward about the Harvey, as I have induced Macalister of the R.S.M. to allow me to bid L30 for it, together we could bleed the fellows, but if you are willing to go to L40, the fair thing to do, I suppose, is to put your bid in Magg's hands, and withdraw ours. The copy I believe is a good one. As you know, they are nearly all badly cut and foxed.

Love to Kate and the darlings, & to your boys

Ever yours,

W. O.
