Dear Harvey:

I am horrified that this letter was not forwarded at once - and worst of all Sir William cut it open without noticing. We heard of your safe arrival from Norman Gwyn and are rejoicing you have such glorious weather for your settling in. What a joy & comfort it was to see you - you can't believe. There is one big expression of thankfulness that you have all come and I do hope all is going smoothly. We had several of the Philadelphians here last Sunday & they go over on the 9th. I have heard from the Cleveland lot, very happy in Rouen.

Good news from Revere thus far - Our best love to you -

Aff'ly,

Tanta Grace.

Remember we are here to help - if you need anything.
