(From Lady Osler)

Sept 11th (1917)

Dear Harvey

Norman joined us here last night and said you were expected back at your own place. It makes me fear our letters may have missed you - but then they will be sent back to you - I cannot repeat exactly all I have said before of the comfort you have been - the knowledge that you were with Revere is a comfort beyond anything. Everyone has been so kind, so thoughtful & helpful - I feel more thankful as the days go on - I am getting in touch with some of the men from the Battery - The Sergt. is at Netley and Mrs. Emmons is looking after him - I shall probably go once to see him - All the officers have written and evidently Revere had made many friends. We came here because we had promised Revere to do so & we needed the change badly - We go back on the 20th I think - We have the little Max Muller boys here and they are devoted to Sir William.

Much love to you dear Harvey

Affec.

Tante Grace.

Osler Lady
