Dear Hurd,

I think I sent thanks for the two copies of the Bulletin. I was particularly anxious to have the article for the Harvey Section of my library. Sorry to hear that your Library building is not to be begun at once. I shall send all my heart and artery literature to the Hopkins and there are a good many tuberculosis works, a list of which I shall send, so Hamman could pick out what he wanted. Harvey Cushing is here and in very good form. Quite recovered.

Love to the girls and Welch when you see him.

Sincerely yours,

WM. OSLER.
