Dear Harvey

I do not know if you can read the enclosed. Oh - how I have longed for you or a Tammias during the last ten days! The marked attention paid to his 70 years has caused much trouble, I knew it would - Between coughs & groans he has said "Pneumonia at 70 - is always fatal, there is a list of people to give my love & goodbye to - " It will take a long time to pull up I fear, & he has cancelled nearly every engagement. I hope Bill will get home tonight he has been in Rome at that old conference.

Much - much love

Tanta Grace.
