

Misdated COS 417/52.16.8
21. XI. 19. (Oct. 21st).

Dear Harvey

Knocked out again by one of my bad Bronchial attacks, pretty sharp one this time. In fact one night I felt "all in" with the spasmodic cough - could not have been worse than senile wh- cough. T. not high, good deal of sweating, the same absence of physical signs as in previous, just a little impairment of Reson. at both bases And I had got so well & back to pre-war weight. T^o normal now for four days & cough gone. The Vesal came about 3 w. ago I think I wrote at once. I have not it & am delighted, nor have I the pocket Ed. of the Epitome. Yours about the cer. palsies has just come & I will reply later. Many thanks.

Love to the darlings

Yours

W^m Osler.

Love to Anna & Tony
