### A Great Man.

The biography of that distinguished man, Sir William Osler, is to be published by the Oxford University Press, for he was an Oxford professor. It promises to be a big book, but Mr. Harvey Cushing is well forward with the writing of it. Osler's life was a part of the history of three countries, Canada, America, and England. His influence pervaded the whole of the English-speaking world, and his name was known wherever medicine was taught, studied, or practised. The materials for a life-history of him are immense, and his biographer's difficulty has been to select the salient things.
