June 10th (1913)

Dear Dr. Camac

Our Chief did not give me your letter very promptly - hence the delay in your hearing from me. I hardly know what to say - how to thank you for what you have done and for the tender thought & feeling that made you do it. It touches me deeply. The book has always seemed a welding link in our friendship and the work was associated with that first summer when we were finding ourselves in our new life. There is a book Sir William is looking at just now and I think he must have it and the value will be doubled - I really do appreciate this so much.

I am so glad to hear Mrs. Camac is happy - I think of you both so often in this trial. I may have to come to her for a lesson. I am here for a cure - something wrong with both wrists.

Mrs. McCagg will tell you - With wishes for a happy summer I am affect.

Grace R. Osler.
