

Canadian Med. Corp. Co.

Nov. 10, 1916.

(From Dr. Wilbert C. Davison)

to them all- They have had an awful
rumpus. And all the decent men have re-
signed or their resignations are pending.
Sam Hughes has been sat upon in Ottawa by
having an overseas Minister of Militia
here- The whole C.A.M.C. will be reorganized
incidentally.
I have never known Sir William so miser-
able over anything.....
Revere went to France over three weeks
ago. He is with an Ammunition Column at
present on the Somme- and simply appalled
by the horror & desolation. The weather
over there is awful and nearly as bad here
at present. Dr. Morse comes in now and
again. He and Revere had two days fishing
during Revere's final leave. The Hospital
is full- 2000 beds now in the various places.
Plenty of cadets and flying men training.
.....

Sincerely ,

(signed)

Grace R. Osler

The open Arms

Nov. 10th. [1916.]

Dear Mr. Jonah

I really miss you very much and
your flittings in and out. I have a
horrible feeling that before any more
nice men come to work in medicine &
become our friends- I shall be too old
to enjoy them. However they can "push" me
out if the chair isn't worn out. It is
in constant use now with wounded. I
haven't seen Mr. Holman but daresay he will
soon begin to run in too. Sir William
had your letter of October 13st and I
was so glad to hear you & Mr. Penfield
have made a happy start at the Hopkins-
I... Sir William is careering madly
about as usual & I am rather cross with
him for he will not rest at all- at pre-
sent - he is relieved of the Canadian
Hospitals as he has resigned as Consultant
