24th November 1923.

Dear Dr. Cushing,

When Sir John Mac Alister received your letter a few days ago, he asked me if I could help him in getting together some information for you regarding the fellowship of Medicine and its association with the late Sir William Osler. This I have done and he now asks me, as he cannot do so himself at present, to write you a few lines in explanation.

I think perhaps the enclosed papers will speak for themselves, but I would like to add that it has been a great pleasure to me to put together this brief report and I hope it will give you some idea of the large part Sir William played in the early life of the Fellowship and what hopes he had for it - hopes which perhaps one day will yet be fulfilled.

Sir John wishes me to send you his kind remembrances and to say that he would have written to you himself, but he is still very far from well and is under orders to 'go slow' for a time.

Believe me,

Yours very truly,

Margaret A. Willes.

Secretary.
