

To Dr. Flick from Dr. Jacobs

Newport, R. I.,
July 2, 1904.

Dear Dr. Flick:

I beg to inform you that at the recent meeting of the Executive Committee of the National Association for the Study and Prevention of Tuberculosis you were appointed a member of the Committee of Admission of Members to the Society, the others upon the Committee being Dr. Bowditch, Dr. Biggs and the Secretary. I will submit to you within a few days a list of those applying for membership, so that you may rigidly inspect it and reject any unsuitable persons.

Believe me

Very sincerely yours,

Henry Barton Jacobs.

I will in a few days tell you something more of our meeting in Boston. We were sorry you could not be there.
