

To Dr. Flick from Dr. Karl von Ruck.

The Journal of Tuberculosis,
Asheville, N. C.,
April 30, 1902.

My dear Doctor:

I have recently accepted the chairmanship on the Committee of the third symposium of the forthcoming Congress of Tuberculosis to be held in New York City at the Hotel Majestic on May 14, 15, and 16; and, wishing that this section of the Congress shall be participated in by the best men and do creditable work, I am most desirous of having you attend the Congress, and if possible, present a paper for my section.

The subject covers the entire medical and surgical side in Etiology, Diagnosis, and Treatment, including Sanitoria, Climate, Light and Electricity, and I am sure that you could add something of value to this important work.

Awaiting your early reply, I am

Very truly yours,

Karl von Ruck.

P.S. Arrangements have been made for reduced railway fares.

Dr. Lawrence F. Flick.
