To Dr. Otis from Dr. Flick.

Philadelphia,
March 16, 1904.

My dear Dr. Otis:

Maragliano of Italy will lecture under the auspices of the Henry Phipps Institute in Philadelphia on the evening of March 28th. There will be a meeting of men interested in the movement for an International Congress on Tuberculosis in the College of Physicians, 13th & Locust Sts., Philadelphia, at three o'clock on the afternoon of Monday, March 28th. Invitations to this meeting are sent out by Dr. William Osler of Baltimore, who is Chairman of the Committee which has been appointed for the purpose. I do not know whether you are coming on to Philadelphia on that occasion but I would like very much if you could come on to hear Maragliano and if you could accept the invitation from me to lunch with Maragliano at the University Club, 1510 Walnut St., Philadelphia, at 12.30 o'clock on Monday, March 28th, the date of the lecture. I would like to have as many workers in the tuberculosis cause meet Maragliano as possible during his visit to this country.

Yours truly,

Lawrence F. Flick.
