To Dr. Theobald Smith from Dr. Flick.

Philadelphia,
March 18, 1904.

My dear Dr. Smith:

It has been arranged by Dr. Osler to have the meeting to consider matters connected with the representation of this country on the International Congress on Tuberculosis and with holding an International Congress on Tuberculosis in this country, sometime in the future, held in Philadelphia on Monday, March 28th, the day on which Maragliano will give his lecture. I will give a luncheon to Maragliano and visiting friends and delegates at the University Club at 12.30 of that day, March 28th. I would be much pleased to have you lunch with me. The University Club is located at 1510 Walnut Street.

Cordially yours,

Lawrence F. Flick.

R.S.V.P.
