

Dr. Flick from Dr. Bracken.

State Board of Health, St. Paul, Minnesota.
March 24, 1904.

Dr. L. F. Flick.

My dear Doctor:

I regret that I will not be able to be with you next week. I take a deep interest in the question of tuberculosis, and would like to have been able to attend the Conference looking to securing some more definite plans for a Tuberculosis Congress. This is my busy time, however, as I have extra work in the University, together with the regular duties of this office.

Trusting that you will have a pleasant gathering in every way, and a successful conference, I am

Very truly yours,

H. M. Bracken.
