From Dr. Minor to Dr. Flick

65 French Broad Ave.,
Asheville, N.C.
March --, 1904.

My dear Dr. Flick:

While I am sorry that Maragliano has disappointed you, as I should have liked to meet him, I am sure his absence will not make your lunch any less inviting and you can count on my being there.

Let us hope that the Congress question will be satisfactorily settled, and that the funeral of the two quack Congresses will soon be here.

Allow me at the same time to thank you for your most excellent article on House Infection in the Medical News, Feb. 6, which I greatly enjoyed and a reprint of which I should like to have.

Sincerely yours,

Charles L. Minor.
