Dear Hawley

I enclose the medical news list. I was lucky enough to find out that he & Feliger had taken to the editorial etc and after some search we unearthed it. The list is largely of editorials of which otherwise of course there is no record. I feel rather pleased at having tracked it down.

You probably know the E. Y. Davis letter. Medical News. Dec. 13. 1884 p. 673. The hoax was suggested by an article by Parvizi. I think. I have often wondered how W.O. regarded it in later years.

There is a review of Roller's Book  
signed E. Y. D. Ann. Jour. Med. Sc. 1905  
vol. 129. p. 896.

With best wishes  
yours  
Tammes.
