Discussed papers

CANADA MEDICAL & SURGICAL JOURNAL. MONTREAL MED. SOCIETY TRANSACTIONS.
July 25, 1879 - Feb. 19, 1882.

Montreal Med. Soc., July 25, 1879.

Osler demonstrated brain. Dalton's apparatus for slicing it
& Giacomini's method.

C.M. & S.J., 1880, viii, 16-17.

Canada Medical Assn. ^{Sept. 10-11, 1879.}

Report of Publication Committee by Dr. Osler.

C.M. & S.J., 1880, viii, 84.

Demonstration of medical anatomy of brain.

Ibid., p. 88.

Mont. Med. Chi., Oct. 3, 1879.

(a) Myosarcoma of kidney

(b) Cirrhosis of liver with thrombosis of portal vein

(c) Perforation of intestine in typhoid

Ibid., 168.

Mont. Med. Chi., Oct. 31, 1879.

Demonstrated:

(a) Ovarian tumor

(b) chronic valvular endocarditis

Ibid., 223.

Mont. Med. Chi., Nov. 14, 1879.

Demonstrated:

(a) Perforated intestine in typhoid.

(b) Membranous laryngitis, croup or diphtheria.

Read paper on 3 cases of disease of brain - with specimens

Ibid., 223-226.

Mont. Med. Chi., Dec. 12, 1879.

Demonstrated:

(a) Lungs from acute pneumonic phthisis (see M.G.H. Reports)

(b) Cirrhotic liver

(c) Aneurism of anterior communicating artery.

Discussed paper on spinal apoplexy and seconded resolution re-
garding reporting diseases weekly.

Ibid., 263-264.

Mont. Med. Chi., Jan. 30, 1880.

Dr. Osler explained that the pathological specimens intended for
exhibition had, unfortunately, been frozen hard and could not be
shown!

Ibid., 364.

Mont. Med. Chi., Feb. 6, 1880.

Discussed case of typhoid drainage. Showed gallbladder with
two stones in cystic duct.

Ibid., 365.

Mont. Med. Chi., Mar. 19, 1880.

Demonstrated:

- (a) Tumor of thyroid
- (b) Dermoid cyst
- (c) Two cases adherent pericardium
- (d) Mitral stenosis
- (e) Cancerous ovarian tumor

Discussed chronic dementia
Ibid., 450.

Mont. Med. Chi., April 9, 1880.

Demonstrated:

- (a) Aneurysmal dilatation of arch of aorta
- (b) Congenital deficiency of rectum

Ibid., 452-453.

Trans. Med. Chi., April 16, 1880.

Discussed paper on communicability of typhoid by milk.

Nominated member of committee embodying views of society on subject of pure milk supply.

C.M. & S.J., 1880, viii, 512-517.

Trans. Med. Chi., April 30, 1880.

Resolution as above seconded by him.

Presented a peculiar case of heart murmur.

Ibid., p.

Trans. Med. Chi., May 27, 1880.

Presented spec. of sacculated aneurysm of arch of aorta (healed aneurism) Clinical remarks by Dr. Ross.

Discussed paper on Prog. Motor Paralysis.

Ibid., 556-557.

Trans. Med. Chi., June 11, 1880.

Presented:

- (a) Miner's lung.
- (b) Umbilical hernia.

June 25, 1880.

Presented:

- (a) apoplexy of po[?]
- (b) Spinal cord in spastic paraplegia.
- (c) Read paper on Insular Sclerosis.
- (d) Moved that \$50.00 be expended in procuring current med. lit. for reading.

Drs. Osler, Campbell and Ross appointed committee.

C.M. & S.J., 1881, ix, 32-35.

Trans. Can. Med. Assoc., Meeting Ottawa., Sept. 1880.

(Paper. A Contribution to the Question of Spastic Spinal Paralysis

Ibid., 100.

Discussed movable kidney.

Ibid., 100.

Trans. Med. Chi. Montreal., Nov. 12, 1880.

Demonstrated specimens:

- (a) Case of hyeloid disease of lungs.
- (b) Large gall stone in g.b. with fistulous opening.
- (c) Fatty overgrowth about auricle of heart
- (d) Myoma of uterus.

Presented paper on Delayed Resolution in Pneumonia.

Page?

Trans. Med. Chi., Montreal, Dec. 10, 1880.

Presented specimens:

- (a) Cerebral apoplexy
- (b) Fatty degeneration of heart in anaemia.
- (c) Enlarged spleen

Discussed paper on purpura.

Jan. 7, 1881.

Presented:

- (a) Intussusception of bowel, with submucous fatty tumour.
- (b) Rare sequelae of typhoid.

C.S. & M.J., 1881, IX, 425-427

Trans. Med. Chi., Montreal, Jan. 21, 1881

Presented:

- (a) Sarcome of testicle.

See
spec

Feb. 4, 1881.

Presented:

- (a) Heart of mitral stenosis and hypertrophy
- (b) Chronic endocardites

Ibid., 485

Trans. N.Y. Path. Soc., Jan. 26, 1881.

Paper on ulcerative endocarditis reported.

Ibid., 551-552 (from N.Y. Med. Gazette).

Trans. Med. Chi., Montreal., May 13, 1881

Presented spec.

- * (a) Hydatidiform degeneration of chorion
- * (b) " " "
- (c) Kidneys from uraemic coma
- (d) Ulcerative endocarditis
- (e) Heart in mitral stenosis, aortic disease and fibroid degeneration of apex.

Ibid., 671-673

May 27, 1881.

Presented:

- (a) Micro. slide from uraemic coma kidney
- (b) Aneurysm of aorta, rupturing into p.a.
- (c) Small contracted kidney
- (d) Ca of bones of skull.

Discussed case.

Ibid., 744-746.

Trans. Med. Chi., Montreal., July 10, 1881

Presented:

- (a) 2 specimens fibroid degeneration of heart.
- (b) Cancer of Coecum

Discussed Cerebellar Disease

" Perityphlitis

C.M. & S.J. 1882.X.p.15-20

Trans. Med. Chi., Montreal, Sept. 30, 1881

Presented:

- (a) Multiple diverticula of Jepam

Read paper on obliteration Portal Vein.

Oct. 14, 1881.

Presented:

- (a) 2 cases of Aneurysm
- (b) Gave autopsy on case of melaena

Rep by Dr. Powell.

Trans. Med. Chi., Montreal, Oct. 28, 1881.

Presented paper on:

Extreme dilatation of bile-ducts without suppuration. p. 294-300.

Canada Med. J. 1882, x)

Jan. 6, 1882.

Presented:

(a) Pneumonia, Diphtheritic Gastritis

(b) Mitral & Tricuspid Stenosis

Paper on Brains of Criminals.

p. 419-426

Feb. 17, 1882.

Presented:

(a) Head of Horse in Glanders

(b) Aneurysm from horse.

* (c) Aneurysm of aorta. Perforation of Oesophagus. Pages 500-501-2

(Dr. Wood's case) my critic.

also:

(a) Atheromatous plates & ulcers on Arch.

(b) Atheromatous Abscess & Aneurysm of ft. iliac artery

(c) Byzogeros' New ? Blood Element & its relation to Thrombus formation

Bizzozero's pages 498-490

Trans. Canada Medical Assoc. Meeting Sept. 1 & 2, 1881.
 (a) Report on Progress of Pathology - p.42 - (see signed or unsigned)
 (b) Paper: Delayed Resolution on Pneumonia - pp. 99-104 *cf. bottom p. 2.*
