Sir Edward Worthington.

*Adastal House*

You may have seen that a play - "Dr. James Barrie" was produced at a matinee at the St. James' Theatre. She was a very remarkable character, and I have been interested in her as we used to hear such remarkable ~~tales~~ about her in Montreal. She died in 1865, and the statement is that the report of the autopsy is in the War Office Records, Victoria Street - at least, so Colonel Rogers says in a preface to the book "The Modern Sphinx". Keogh thinks the report would be in the Central Registry of the War Office. I should like very much indeed a copy if it is possible to get it.

The play -  
"Dr. James Barrie".
