Dear Sir William,

I am asking Oliver to take to you an edition of Sir Thomas Browne which Frank was very fond of and which I should simply love you to have if you would care to add it to your collection. But that is only if - you may already have it. I have no words to tell you what your presence and unutterable kindness used to mean to me, and as for him - I know that every time you came into the room it was like a ray of light striking into the mists of his consciousness.

Thank you from the depths of my heart.

Rosamund B. Gotch.

If you will have the Browne I will write your name in it.

*W.O. has written on the fly leaf.*

W.O. has written this note at the beginning:-

"No sooner had Dod brought out this edition (the 4th 1658) so enriched, than Elkins, his former partner, printed in double column, not only the Tracts appended by Dod, but also Religio Medici: and thus, in 1659, produced, as altogether new, his unsold copies of the 3rd edition, with these enrichments".
