FROM THE REGIUS PROFESSOR OF MEDICINE, OXFORD

15.IV.17

Dear Fisher

Thanks for that nice Report. What a number of 'good items' on your list of additions. I should like to give the 200th incunable. I will try to arrange it - if the cobwebs are not too thick in my pocket! I am creeping up - 111, more than double the number in any medical Library in Gt. Britain. Have you the catalogue of the late Dr. Paynes Library? if not I can send one. - 'Tis a good list. It is the collection I just missed for the J.H.H. We are all so excited about the U.S. coming in - it means so much. Have you any duplicate of Morton, Jackson or Wells? I am trying to get my Anaesthesia collection filled up. Have you a good collection of the novels in which Doctors (or the profession) are well portrayed? And the poetical works of Doctors? They form interesting sections of a library. I did give you Geo. B. Woods First & Last? S. W. M. made me hand it over to him. There are only a few copies extant - Greetings to the Library Committee.

Sincerely yours

W^m Osler

P.S. Have just heard of Jack Mitchell's death. Poor fellow!
he deserved a longer run.
