Dr. Harvey Cushing,  
305 Walnut Street,  
Brookline, Mass.

My dear Dr. Cushing:-

I shall send you by registered mail the Osler number of the Maryland Medical Journal which you asked for, and the few letters that I could collect from Dr. Osler. I find that I kept a few of the special library ones, and have made running notes on some of these, but the personal ones are lamentably few. You see I only kept the treasures, the ones that were precious to me for the reasons noted in lead pencil. There must have been hundreds come to the Library during our correspondence regarding books, etc., but in the old days at 847 I often gave these to his students who wanted the signatures, and in those days we did not file our business letters. It has never been my habit to keep many personal letters so you may know how I value what I am sending you. I shall be glad to be of any further service in your labor, if you will let me know.

We are making a duplicate collection for the case in Osler Hall of everything written by Sir William at any period, and I hope you will remember this if you have anything to contribute.

With kind regards,

Very sincerely,

*Marcia C. Noyes*  
Librarian.
