Dear Dr Cushing

Since completing my letter
notes I have been to the Rylands
library. Mr. Guppy, the
debrarian tells me that they
had a good many letters from
Sir Wm, about Medical Incom-
abula, chiefly, of which they
have several in the library.
Sir Wm was preparing a Cata-
logue of all of these early
printed medical books &
had someone working on it
for him so Mr Guppy under-
stood. There was nothing in
the letters of special moment.
Sir Wm went to Glasgow to the

opening of some library
there. I know nothing about
this but might be able to
collect some information if
you have none & want it.

I am

Yours very truly
E. M. Brockbank

Dr. Thomas Harris. was an
Honorary Physician to the
Manchester Royal Infirmary
& died in 1906. Mr. Maugh
Brooker was in Toronto & I
would have got him to see Harris
who asked for him.
