

CUS 417/37.19

W.O.s - Physicist notes -

Used to stand for hours among the boys
travelling without Jermans' help -

Used to run upstairs -

For days in Jersey tried the boys out
climbing the hills.

Great gift of always appearing to be 'there' -
often meetings & trips away

used avoid boys & communicate directly

was always appeared to be in direct contact
with them but only 2-2 times a year.

Excuse - Students' given hand one would
do by & say to those of this last case of
Sympson's work that belongs to the 'major'
for any interest in the students' work
about their work. not in their ability
to make a new drug work!
