EVELEIGH NASH & GRAYSON LTD., 148, STRAND, LONDON

OXFORD BOOKS

THE LIFE OF SIR WILLIAM OSLER

By Harvey Cushing. In two volumes, 37/6 net.

THIS book does not set out to estimate Osler's professional accomplishments, that will doubtless come later; but it is an attempt to bring him into proper alignment with that most remarkable period in the annals of Medicine through which he lived.

THOSE who knew him best, says the author, will appreciate the difficulties of compiling this record, and the method adopted has been that of letting Osler's story tell itself through what he himself put on paper. And it is believed that from the vast mass of material at his disposal the author has been able to recapture Osler's rare personality, spirit, and character, and has done justice to his varied interests. With many illustrations.
