

Dear Crawford,

C05417/39.44

At our next meeting I have a proposal to make to the Section regarding the tomb of Avicenna at Hamardan, Persia, which has been in existence for nearly ten centuries and which is now in a state of ruin. I propose that under the auspices of our Section a general committee should be formed to raise funds for its restoration. I have got the estimates from Persia and I will be prepared to lay the scheme ~~for approval~~ very briefly before the Section and ask for its approval. Will you please put it on the Agenda? - "Suggested scheme for the restoration of the tomb of Avicenna".

May 3rd 1914.

Dr. Raymond Crawford.
