13, Norham Gardens,
Oxford

Jan. 16th,

Dear Mr. Jonah,

Sir William wrote to you
a day or two ago.....

Robert Johnson from the
Hopkins is working at the Base on the
Orthopaedic Staff. He was married just
before he left & his wife is working
hard at the plaster cast cases. I suppose
you have heard that Dr. Janeway has died
of pneumonia - It is very sad and a most
serious loss. Dr. Fatcher (Lt. Colonel) is
at the Orpington, Canadian Hospital until
March. Sir William goes every Monday
as usual to Taplow. I do not know if you
were really Jonah- or that idiot Peasley.
It cost £100 to repair the car after he
was called up - & since Bennings return
no disasters- but I fancy soon we must

(From Dr. Wilbert C. Davison)

give it up, - petrol is so scarce

Sir William's health needs it however-
I am watching him very carefully. Since
Revere's death he has grown very thin
and his heart is simply broken- Oh- it
is so hard to be cheerful and bare the
disappointment and grief with a cheer-
ful smile.

I do hope this will not bother
you about ~~Bob~~ but I know you won't mind
trying to help the poor fellow- My
love to your wife

Affectionally,
(signed) G.R.Osler
