G.R.O.

[Lady Osler to Mrs. Chapin]

[13 Norham Gardens, Oxford]

Tuesday Eve - 13th [May, 1919]

Your cable came today - but no date. We also had a long wireless letter from the Hartys. I suppose we must wait ages for your letter. W.O. finished the Address^s last evening - I have not heard it yet - it is in the hands of the Press reader today. Bill read it Sunday and said it was splendid. The meeting will be Friday & Saturday & the guests stay Sunday when Sir Arthur Evans gives an afternoon party at Boars Hill. The tea guests have grown to 200 - so I have had to put the whole business into the hands of Weeks - at 2/ per head and hope all will be well. Two years today since Billie Wright was killed and our boy caught his famous fish - what a glorious day it was! Miss Cummins is now working on Revere's books in the evenings cataloguing them - They will go out in the Autumn when the shipping is better & the Library ready. I have 6 gns for you for the bicycle - shall I keep it or send it? I have written Sue this week.

I had an hour in St Johns this morning with Mr. Biddle - Never have I seen it so wonderful. The blue poppies will be out in a week. I sent several Americans in to look at it. Bob played tennis here this afternoon - really quite cheerful & decent. Yesterday - WO told me he felt sure Bob was very unhappy & he thought the expression of his eyes bad. Sallie has not been quite so well - And I almost hoped -----

Good night
